

## DID YOU KNOW.....

It has come to our attention lately that many residents do not know or remember what their 4-digit code is for the gates. If you don't remember getting a code, we would highly recommend calling Alltech Gate Systems (number listed below) and get your 4-digit code (you can also select your own code). If you have not read the Gate Access Instructions, please do so to familiarize yourself with them. The Instructions is on the website at [\(http://legendshoa.stratfordmanagement.org/gate-access-instructions/\)](http://legendshoa.stratfordmanagement.org/gate-access-instructions/) and also comes in the Welcome Packets. That way you will be prepared if/when you need to be. There are several ways to gain access. This is just one of them.

### **To Enter Gates Using Your Keypad Code (esp. when main gates are closed)**

**Residents:** Press the # (pound) key on the keypad and enter your 4-digit code. Be sure to fully depress the buttons. You must obtain your keycode from the gate company: **Alltech Gate System at 520-747-4441**. Please note that you will be provided with a 4-digit code for two gates: Sunrise Pointe off Frontage Road and the main gate south off Abrego.

A friendly reminder to please read through your Welcome Packet that you are given as a new resident. It has a lot of useful information in it to help with getting settled into your new home. If you have not received yours, please let your Block Captain know. The Block Captain list is on the website under **Tips/Useful Links**.
